TO DECISION ON PETITION AS TIMELY FILED ON NOVEMBER 16, 2001**

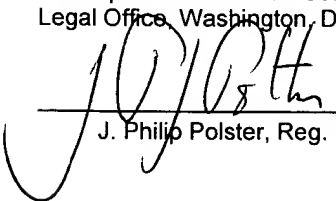

Sir:

In response to the Decision in response to the Decision on Petition under 37 C.F.R. §1.47(a) mailed May 17, 2001 applicants filed a Response on November 16, 2001, attached hereto. The Response was returned to the undersigned today.

Due to the anthrax letters following September 11, 2001 and postal interruption for zip code 20231, applicants' Response was apparently irradiated. The result of the apparent irradiation was obliteration of applicants' heat-sensitive mailing label, which read: "Commissioner for Patents, Office of PCT Legal Administration, Box PCT, - ATTN: Box PCT, Legal Office, Washington, DC 20231." However, after the apparent irradiation of the label, because the label is heat sensitive, the address is no longer

visible and the envelope was returned to sender. See enclosed original envelope. Another indication of apparent irradiation is the fact that applicants' original papers have been turned to yellow by extreme heat.

Additionally, a Response to a Decision on Petition is a document entitled to the benefit of a Certificate of Mailing under 37 C.F.R. §1.8(a). Date

The Decision on Applicants' previous petition, indicates that the Petition under 37 CFR § 1.47(a) filed on 30 November 2000 lacked documentary proof to corroborate the statements of the undersigned attorney that the application papers were sent to Mr. Deogon and that he received them. The Decision also indicates that no statement by Mr. Feldman was filed attesting to his discussion with Mr. Deogon and detailing the time and place of the call. Therefore, the factual proof that Mr. Deogon refuses to execute the application is deemed to be missing.

Finally, the Decision indicates that the declaration on behalf of the non-signing inventor is defective because it was not signed by all the inventors and does not identify inventor Deogon on the declaration.

Enclosed herewith are copies of the undersigned attorney's correspondence to Malkit Deogon and copies of Federal Express proof of delivery of the first two letters mentioned in the previous Petition under 37 CFR § 1.47(a) filed on 30 November 2000.

Also enclosed is a statement by Rubin Feldman as to the discussion, detailing the telephone discussions he had with Malkit Deogon, including their time and place.

Also enclosed is a declaration signed by the three other inventors on behalf of Malkit Deogon.

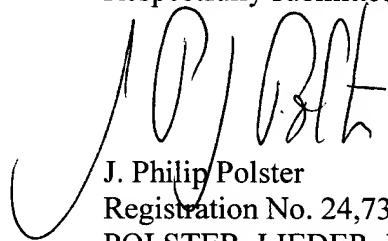

It is concluded by the "37 CFR 1.47 applicants" that the nonsigning inventor's conduct constitutes a refusal to execute the application. It is believed that the foregoing

declarations and documentary evidence support that conclusion, and it is respectfully requested that a filing date of January 14, 2000 be granted to the application and that the application be passed to examination.

Should this response be deemed to be incomplete in any way, it is respectfully requested that applicants' undersigned attorney be contacted by telephone at 314-872-8118, extension 426.

Please charge any additional fees required by this paper, beyond the enclosed check for the extension of time, to our deposit account No. 162201.

Our DN 7387US**

Dear Dr. Deogon:

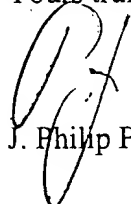

I wrote to you in July asking you to sign and return a declaration and power of attorney for a pending U.S. application. A copy is enclosed. The Patent and Trademark Office deadline for responding has passed, and we are running out of extensions of time.

Is there any problem with the document? We urgently need to file it. Even a faxed copy would be sufficient, but we do need to file something in the next few days.

If the declaration is accurate, please sign and date it as indicated and return it to me for filing with the Patent and Trademark Office, either by mail or fax. Our fax number is 314-991-2178 (preceded by the US national code).

If you see any problems, please let me know. By far the easiest way to correspond these days is by e-mail to [jpolster@patpro.com](mailto:jpolster@patpro.com). My telephone is 314-872-8118, extension 426. Either way, it will be good to hear from you.

Yours truly,

Dear Dr. Deogon:

I finally have an excuse to try to catch up with you and learn how you are doing.

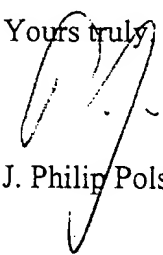

In filing the U.S. national phase of the PCT application on the method of making high temperature glass fiber, we have been requested to obtain your signature on the "declaration" form. I am therefore enclosing a copy of the PCT application, together with a declaration stating that you are one of the named inventors, and that you participated in the invention of at least one of the claims of the application.

Please review the declaration, and if it is accurate sign and date it as indicated and return it to me for filing with the Patent and Trademark Office.

If you see any problems, please let me know. By far the easiest way to correspond these days is by e-mail to [jpolster@patpro.com](mailto:jpolster@patpro.com). If you prefer, our fax number is 314-991-2178 and my telephone is 314-872-8118, extension 426.
